State Standardized Testing

In order for Graduation Alliance to facilitate student attendance for standardized testing, districts must provide a list of students in the program who need to participate in testing to Graduation Alliance, as well as information about the date, times, and locations of the tests, at least 30 days prior to the test administration date. Failure to provide the necessary information can result in student non-attendance.

Students who unsuccessfully attempt the FSA will work with the state testing coordinator on test-taking strategies and preparation prior to retesting.
